

## UVOD U GVISP TRAVEL DASHBORD

Dashbord se prikazuje na : desktopu+lap topu+ tabletu / obavezno responsiv.

Dashbord se zove Gvisp Travel i nalazi na web sajtu [www.gvisptravel.com](http://www.gvisptravel.com)

Za pokretanje dashborda će se koristiti : URL link, QR code, desktop ikonica, buton...?

Predviđen je da radi isključivo online.

Za izradu je odabran open code :

<https://github.com/onokumus/Bootstrap-Admin-Template#demo>

koji je prebačen u ANGULAR JS

## **ANALIZA FAZE 1. :**

Ovde je postavljena poslednja verzija koda - FAZA 1. :

<http://webdev.normasoft.net:9000/>

Username: zoranpro

Pass: test12

### Login

- Standard Login - OK
- FB Login - NOT IMPLEMENTED
- Forgot Password - OK

### Registration

- Entering everything properly will make registration successful
- System is not handling errors that are return from server if for some reason registration is not done correctly(ex: Website is already in use)

### Home

- Everything is hard-coded

### Main - Top navigation

- Buttons layout is not the same as on mockups
- Middle, home button - OK
- Logout button - OK
- Profile button/screen - OK
- Profile and Company screens are divided. In mockup they are one page with two sections
- Accounts button - OK
- Accounts screen does not look the same as on the mockup. There is no part with managing channels. Only ability to add/remove administrators
- Notifications button - NOT IMPLEMENTED
- Messages button - Everything is hardcoded
- Users button - NOT IMPLEMENTED
- Partners button - NOT IMPLEMENTED
- Private/groups - Everything is hard-coded. Only for demonstration purpose
- Private/maps- Everything is hard-coded. Only for demonstration purpose
- Private/calendar- Everything is hard-coded. Only for demonstration purpose

### Public - Chanel

- Page is completely different from Mockup
- Ability to edit Chanel is working(Add admin, Edit details, Change image)
- **Question:** What are fields "Date from" and "Date to"?
- When we assign album to the channel, user can't see that album is assigned
- Normal admin can't add new channel - OK
- Add new channel
  - Parent field is returning all channels instead only his parent
  - **Question** - What is field "Type" for? It has values(Arrangement, Arrangement group)
  - **Note** - After successful saving you should be redirected to channel screen
  - Posts are not appropriate ones
  - Edit is working

- Adding channel on third level(Glavni kanal -> Leto 2015 -> Grcka) is not working. Channel is created but not seen on left menu. In Add New Channel section, in "Parent" it is placed bellow "Arrangement".
- Details/social share - NOT IMPLEMENTED
- Add new post
  - Adding post - OK
  - Edit post - OK
  - Post is seen on all channels
  - Chosen album is not seen on post
  - Details/social share - NOT IMPLEMENTED
- Create Top List
  - Create top list - OK
  - Edit top list - OK
  - Chosen album is not seen on toplist
  - Details/social share - NOT IMPLEMENTED
- Help button - NOT IMPLEMENTED
- News button - NOT IMPLEMENTED

#### Public - Album

- Adding new album - OK
- Edit album – OK
- Normal admin can't add new album
